1. PAPER BAG MAKING MACHINE

I. Owing to our expertise in the domain of paper bag making machine, we are able to offer technically advance and upgraded Paper Bag Making Machine. Our sturdy built machine wide applications in grocery sector requirements. Our machines are very good in speed and produce 100 -225 bags per minute. Our machines are easy to install, operate and need minimal maintenance. We have established very strong foothold in the market by offering most reliable and durable products at very reasonable prices.

II. Paper bag making machine is designed to manufacture flat and satchel paper bags from kraft paper, greaseproof, white paper and poster paper etc. in different sizes for packing confectionery, food stuff, ready-made garments, tobacco, tea powder, groceries, dry cleaners etc.

FEATURES

- **Rigid and Robust Construction**
- **Simple Operation and Adjustment**
- **Easy Change of Size**
- **Less Maintenance**
- **Can make carry bags with the help of Creasing Machine & Eyelet Machine**

TYPES

- We Have Four Models of Paper Bag Making Machines depends upon maximum and minimum bag size.
- You can change the bag size with help of size plate and gears. machine is equipped with 2 colour and 4 colour flexo printing unit to print the design and logo as per customer demand.
- Large Model Paper Bag Making Machine
- Medium Model Paper Bag Making Machine
- Standard Model Paper Bag Making Machine
- Baby Model Paper Bag Making Machine

1. PAPER BAG MAKING MACHINE

- Our paper bag making machine can be coupled with two or four color printing unit as per your choice .
- Bag formed in this machine is of V type Bottom with side gusset automatically further shopping bags can be made with the help of creasing and eyelet machine.
- Bag width and length can be changed with the help of size plates and gears which is easy to change.

Specifications of Paper Bag Making Machine

Model	Large	Medium	Standard	Baby
Max. Size of Bag	42cm x 60 cm	28cm x 50cm	26cm x 36 cm	15cm x 22 cm
Min. Size of Bag	12cm x 18 cm	12cm x 18 cm	5 cm x 10 cm	5 cm x 10 cm
Capacity per 8Hr.	50-80,000 bags	60-80,000 bags	70-80,000 bags	80-90,000 bags
Flexo Printing	2,4 Colours	2,4 Colours	2,4 Colours	2,4 Colours
GSM	50-150	50-150	40-120	40-120
MOTOR (HP)	5 or 2	3 or 2	3 or 2	3 or 2

2. Paper Napkin Making Machine

FULLY AUTOMATIC PAPER NAPKIN MACHINE Paper Napkin Machine- A necessity in today's world, irrespective of age/place whether you a adult/child at home/car/restaurant/vacation all you need is a paper napkin with you all the time. These paper napkins are used in various forms in household like in kitchen, dining, toilet rolls etc.This machine comes with printing option so you easily print the name and logo on napkin as per customer demands.

Features:

- Hassle free performance
- Low maintenance
- Low power consumption
- Rust proof body

QUICK DETAILS.

- Motor(main)** : 2 HP AC Motor With AC Drive (Single Phase)
 - Motor Band Saw** : 1 HP AC
 - Speed** : 450 to 470 Sheet/min.(2 Lane) ·**Weight** : 2000 Kgs/ Approx.
 - Man Power** : 1 Operator & 1 Packer ·**Raw Material** : Tissue Paper 15 to 18 Gsm (2 Ply)
 - Maximum Unwind Dia** : 48" Max. ·**Dimension** : 16'L x 4.5"W x 72"H
 - Embossing Unit** : One Female Embossing unit (Design as per your requirement)
 - MAXIMUM JUMBO ROLL DIA** : 1100 mm
- MACHINES ARE AVAILABE IN 22, 24 27 ,30 AND 30*30 CM AS PER YOUR DEMANDS.

3. Aluminum Foil Making Machine

Aluminum foil Making Machine

Nowdays aluminum foil rewinding machine emerges as huge demand due to high demands of foil in almost every house, restaurant, hotel etc, and also due to its less price and less maintenance.

High efficiency, easy to operate

Features of this machine:

Working width : 300mm Max

Thickness of Aluminum Foil : Min. 9 microns, max.20 Microns

Electronic Control Panel: 1 HP DC MOTOR

Length Counter: With digital counter and sensor

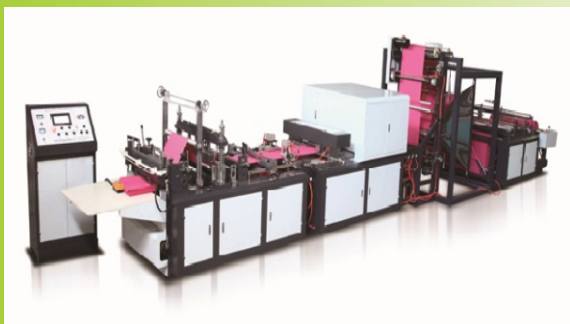

Production : 900-1200 rolls per day (8 hrs) of 9m.)

Thickness of Aluminium Foil : Min. 9 microne, max.20 Microne

Motor – 3 hp (Single Phase)

4. Non-Woven Bag Making Machine

Non-Woven Bag Making Machine

- Product Introduction: This machine is suitable for non-woven fabric material, for making non-woven bags of different types and sizes like flat bag, shopping bag, gift bag, cloth bag, handle loop bag, vest bag, shoes bag, drawstring bags etc.Auto meter counting & stopping, can freely set number.
- High voltage static processor, Auto constant temperature heating controller.Automatic punching.Unwinding magnetic power tension control with manual, auto side-correction control.
- This machine adopt ultrasonic welding of all aspects – bag mouth folding, welding, sealing-firm, beautiful and decent, side sealing etc. with high speed and efficiency. The machine is fast and easy to operate

5. Paper Plate Making Machine

Paper Plate Making Machine

Product Introduction: Paper plates are accessories that are used for serving food items at a regular basis. Be it a picnic or a finger food party, the role of paper plates can never be denied. Since these items are lightweight and can be easily disposed off, they are very convenient to be carried to any place for serving food items. Machines are available in single die, double die, triple die etc.

Quick Details:-

Model – Double Die Fully Automatic Machine Crank Model

Production – 45 pcs / per min.

Power Load – 1/2 KW (Single Phase)

Capacity of plate – 4' to 12' inches

Paper Thickness – 100GSM to 180GSM

Weight of Machine – 450 kgs (approx)

Motor – 1hp

Power Consumption—2 Unit (Per Hour)

6. Paper Cup Making Machine

Paper Cup Making Machine

Product Introduction: A paper cup is a disposable cup made out of paper and often lined or coated with plastic or wax to prevent liquid from leaking out or soaking through the paper. It may be made of recycled paper and is widely used around the world.

Quick Details:-

Production – 50 to 55 pcs / per minute

Power Load– 3.5KW

Capacity of Cup – 50ml to 350ml

Paper Thickness – 180 GSM to 280 GSM

Weight of Machine – 1800 kgs

7. Toilet Roll Making Machine

Toilet Roll Making Machine: This hi-speed toilet paper toilet roll making machine is available in 810mm, 1020mm & 1650 mm working widths. It is slitting machine with perforation. Slitting blades could be adjusted to make Kitchen Rolls & Industrial rolls. Electronic counter is provided which controls the No. of sheets to be wound over a given roll in this toilet roll making machine.

Features:

Hassle free performance

Low maintenance

Low power consumption

Rust proof body

8. Die Cutting Machine

Die Cutting Machine or Platen Punching & Creasing Press particularly designed for Die Cutting, Scoring and Creasing Work on PAPER, LINOLEUM, CARD-BOARD, CORRUGATED BOARD, FIREBOARD, CORK, LEATHER, PLASTIC AND PVC MATERIALS etc. Most Handsome and compact patronized Model requires Minimum Floor-Space. Minimum "Make-Ready" Time and provides sufficient hourly production

Basic Description

The very sturdy construction of Die Cutting Machine or Platen Punching & Creasing Press guarantees for perfect works under heaviest conditions. Frame, Platen & Main Gears made of special high tensile Cast Iron are resistant to deformation even if subjected to greatest strain.

9. Lamination Machine

Lamination machine are available in different models as HOT LAMINATION COLD LAMINATION in various sizes and we can manufacture machine as per demands also.

Quick details of standard model

Size : 24" – 24" (610 mm)
 Roll (Film) Width : 24"-- 24" (610 mm)
 Roll (Film) Dia : 24" – 24" (610 mm)
 Power Reqd.: 1000 watts – 1000 watts (Single Ph.)
 Speed Max : 600 mts – 600 mts (1800 ft) /hr
 Dimension : 1800*1500*1950 mm --1800×1500×1950 mm
